EMPLOYMENT AND EARNINGS
UNDER THE ARKANSAS EMPLOYMENT SECURITY LAW
ANNUAL 2012

DESCRIPTION OF DATA

This publication contains covered employment and payroll data by industry and county for the Calendar Year 2012. These data are compiled from quarterly contributions and wage reports submitted by employers subject to the Arkansas Employment Security Law. An employing unit is a single physical location where business is conducted, production takes place, or services are provided. Employment and wage data have been tabulated annually for the calendar year by industry under the **North American Industry Classification System** (NAICS) (see "Industry Classification" below) on a statewide, county and workforce area basis. Payroll data represent the total wages paid during the calendar year, and are also shown by

industry for the State and by publishable industry groups for each county and workforce area. The tabulation of this data is a joint effort in conjunction with the U.S. Bureau of Labor Statistics. In addition, there are tables included which set out total covered employment by months, quarterly payrolls, and average weekly earnings for the years 2005 through 2012. Data contained in this publication are subject to revision. Because of industry code changes between years, substantial employment and wage shifts among industries are anticipated.

INDUSTRY CLASSIFICATION

Previously published industry data will not be comparable in all instances with currently published data since industry codes have been revised. The last two revisions were based on the North American Industry Classification System (NAICS) a six digit industry code instead of the Standard Industrial Classification (SIC) system, a four digit industry code, which had been used previously. The following are the NAICS Manuals used to revise the data: (a) between January 1, 2001 and December 31, 2006 industry codes were assigned under the 2002 North American Industry Classification System (NAICS) Manual; (b) since January 1, 2007 industry codes have been assigned under the 2007 North American Industry Classification System Manual. The NAICS Manual represents a significant change in coding methodology as compared to the SIC Manual. One of the most significant changes involves how NAICS treats auxiliary units.

Auxiliary units are establishments primarily engaged in performing management of support services for other establishments of the same enterprise. The SIC code for these units was based on the activity of the enterprise served. The NAICS code is based on the actual activities that the establishment performs. Comparisons of many industries should not be made between this publication and previous Covered Employment and Earnings publications that were based on SIC. Even though some titles are the same or similar in nature, NAICS and SIC could differ in classification of employers. The implementation of NAICS represents a profound change for statistical programs and will create significant benefits along with transition obstacles for both data collectors and data users. A summary is available on the NAICS home page at <http://www.census.gov/naics>.

DEFINITION OF COVERED EMPLOYMENT AND EARNINGS

Covered Employment is the number of workers employed by businesses subject to the Arkansas Employment Security Law who worked or received pay for the payroll period including the 12th of the month. An employer is subject to the law when they employ one or more employees in each of ten days during the current or preceding calendar year.

Currently excluded from coverage is employment covered by the Railroad Unemployment Insurance Act, some domestic service workers, employees of small agricultural establishments, self-

employed and unpaid family workers, insurance and real estate agents who are on commission only, and employees of churches and religious organizations except separately incorporated schools. The payroll information in this publication includes all wages and salaries paid to any covered employees by their employers including bonuses, commissions, and cash values of remuneration received in any medium other than cash. These wages include both taxable and nontaxable wages. Only the first \$12,000 paid to each worker by an employer in the calendar year is taxable under the Arkansas Employment Security Law.

FEDERAL GOVERNMENT EMPLOYMENT

Table 7 on page 7 lists the average number of civilians employed by the Federal Government in Arkansas during the Calendar Year 2012. Employment and wage data are set out by industry divisions.

These data are obtained from required reports submitted by various government agencies having employment in the State. Civilian Federal workers are covered by the Unemployment Compensation for Federal Employees (UCFE) program.

COUNTY CLASSIFICATION

Employment and payroll data by county are classified according to the county where the workers are employed. Employers with operations in more than one county are requested to furnish this agency with a breakdown of employment and wages for at least one quarter of each year by the counties in which they operate. Many such employers submit county data with each regular contribution report. Note: This information is invaluable in the preparation of monthly employment and payroll data by county.

Employment and payroll data for multi-area employers, who do not furnish county data each quarter of the year, are prorated by county on the basis of one quarter's information. The "Statewide County" table that appears on page 52 of this publication includes data on firms that did not provide a county breakdown of employment and payrolls. It also includes sales, and all other types of personnel with no permanent place of work, as well as employment of employers with no established place of business in Arkansas.

SIGNIFICANT DEVELOPMENTS DURING CALENDAR YEAR 2012

AVERAGE EMPLOYMENT CHANGES

Covered employment averaged 1,126,337 during the Calendar Year 2012 (see Table 1, page 5), an increase of 7,815 from the previous year. The largest employment gains occurred in Education and Health Services (+3,793), Trade, Transportation & Utilities (+3,145), and Professional & Business Services (+3,063). The greatest annual loss occurred in Manufacturing (-3,777).

Industry Classification	Percent of Employment
Natural Resources & Mining	1.9
Construction	4.2
Manufacturing	13.8
Trade, Transportation & Utilities	21.1
Information	1.3
Financial Activities	4.2
Professional & Business Services	11.0
Education & Health Services	15.0
Leisure & Hospitality	9.1
Other Services	2.2
State & Local Government	16.1

EMPLOYMENT CHANGES FOR CALENDAR YEAR 2012

Six of the eleven major industry sectors recorded job gains over the year. The increase in Trade, Transportation & Utilities brought the sector's employment average up to 237,995. Jobs in Education and Health Services averaged 169,448 in 2012. The increase in Professional & Business Services brought the yearly average to 123,656. Professional & Technical Services, which includes legal services, information technology, and consulting, experienced the most growth in that sector.

Five industries experienced over-the-year decreases in employment. The most significant decline occurred in Manufacturing, which can be mostly attributed to a decrease in Miscellaneous Manufacturing (-928), Food Manufacturing (-846), and Printing and Related Support Activities (-804). Losses also occurred in the Other Services (-493), Information (-421), State & Local Government (-319), and Financial Activities (-172) sectors.

EMPLOYMENT CHANGES FOR CALENDAR YEAR 2012

Pulaski County posted the highest average covered employment in 2012 at 233,477. Benton County came in second with 95,912 in covered employment, slightly higher than Washington County with 90,187. Sebastian County had the fourth highest number of covered employment with 64,453, followed by Craighead County with 43,674. Of the leading five counties, only Pulaski County experienced a decline in covered employment compared to 2011.

COVERED WAGES

Wages paid to covered workers totaled \$42,546,231,979 for the Calendar Year 2012 (see Table 1), for an average weekly wage of \$726.42 (see Table 5). Employees in Benton County recorded the highest average weekly wage (\$955.59), and workers in Newton County the lowest (\$434.49) (see Table 6).

The Professional & Business Services sector recorded the highest average weekly wage for the State of Arkansas at \$987.00. The Leisure and Hospitality sector recorded the lowest average weekly wage at \$269.42 for the State of Arkansas (see Table 5).

Industry Classification	Average Weekly Wage
Natural Resources and Mining	\$909.38
Construction	\$794.78
Manufacturing	\$802.69
Trade, Transportation and Utilities	\$692.96
Information	\$955.89
Financial Activities	\$947.43
Professional and Business Services	\$987.00
Education and Health Services	\$703.65
Leisure and Hospitality	\$269.42
Other Services	\$542.53
State and Local Government	\$716.70
